2. Improved Features

- Solve the issue that the 6/8MP device cannot be started with a low probability after upgrading.
- Fixed the issue that the products that do not support audio output, abnormally support custom voice configuration on Hik-Connect.

• Fixed the issue that when the 3x2x model is set to a high frame rate, after switching from the Monitoring mode to the Smart Event mode or Face Capture mode, the interface displays 25 frames, and the actual is 50 frames.

Customer Impact and Recommended Action

This update refers to function/compatibility improvement and will take effect automatically after the Date of Change. We are very sorry for any inconvenience of use-habit changes caused by this action. For any questions and request for this firmware, please contact our local technical support team.
