

How to upgrade firmware to handheld thermography

camera

Purpose

Upgrading new firmware to handheld thermography camera.

Preparation

- 1. Make sure that computer has installed SADP tool.
- 2. Download the firmware file to the desktop.

Steps

- 1. Make the computer and device in the same network.
 - 1.1 Select the Local Settings (^{III}) from the main menu.
 - 1.2 Go to Local Settings>Device Settings>Wi-Fi Settings.

Figure 1

1.3.1 Tap on **WLAN Hot Spot** to enable the WLAN hot spot function. Tap **Set WLAN hot spot** to display password. The default password is 12345678.

1.3.2 Or Tap on Connect to Wi-Fi to enable Wi-Fi, and the searched Wi-Fi will be listed below.

1.4 Connect your computer to the WLAN Hot Spot of the camera or the same Wi-Fi source of the camera. (Take WLAN Hot Spot for example)
